

# 5th ANNUAL STUDENT CONFERENCE

SOUTHERN AFRICA

## 5TH ANNUAL STUDENT CONFERENCE ON SOUTHERN AFRICA

to be held at Sheffield City College of Education from 9-11 July 1976

This conference of student activists has the twofold purpose of framing the Southern African campaign for the forthcoming year and equipping activists with the information to implement the campaigns and tackle the complexities of current events.

With the situation in Southern Africa rapidly approaching a climax, solidarity work in this country must be intensified. Students have a vital role to play and as such this conference must be assured of a large number of delegates. We therefore urge all Unions, Anti-Apartheid groups and interested individuals to ensure that they are represented at the conference.
