

# SHELL FUELLED THE MILITARY THAT ATTACKED KASSINGA

This is what happened when the apartheid army  
attacked Kassinga.

# ISOLATE APARTHEID BOYCOTT SHELL

# STOP APARTHEID BOYCOTT SHELL!

---

Millions of people around the world are showing their opposition to apartheid by boycotting Shell because:

- SHELL South Africa fuels the military and police, supplying around one barrel every 20 seconds;
- SHELL helps South Africa to break the oil embargo of producing countries by selling oil to traders who ship it to South Africa and by buying, handling and refining the embargoed oil there;
- SHELL treats its black workforce badly: many workers live in awful conditions, and few blacks have any chance to reach management posts;
- SHELL operates in Namibia, thus supporting South Africa's illegal occupation eg by supplying some 20% of the military's fuel needs.

**WE CALL ON SHELL TO END COLLABORATION WITH  
APARTHEID BY WITHDRAWING COMPLETELY  
FROM SOUTH AFRICA AND NAMIBIA.**

## REMEMBER KASSINGA

Eleven years ago, on 4 May, South African troops massacred hundreds of Namibians in a refugee camp in the south of Angola. This incursion and the brutal military action was made possible by the fuelling of the apartheid regime by Shell.

Today, as we mourn the estimated 582 people including 120 children who were brutally murdered in Kassinga, we demand that Shell withdraw from South Africa and Namibia and end its collaboration with the racist regime.
