# APARTHEID . . . A CALL TO ACTION

**1988 saw massive support for the cause of freedom in Southern Africa — in the campaign to release Nelson Mandela. But it must not stop there!**

The people of Southern Africa will only be free when the racist apartheid system goes. The struggle to end apartheid and establish a non-racial democratic South Africa is the cause for which Mandela was jailed. It is a cause for which thousands of men, women and children have been jailed, tortured and killed. It is a cause which demands our support. But how?

Nelson Mandela has spelt it out, saying 'every effort to isolate South Africa strengthens our struggle'. In boycotting South African goods, and campaigning for sanctions, we can make a real contribution to the struggle for freedom.

The Anti-Apartheid Movement has launched "**Boycott Apartheid '89**" as a major new campaign to build effective action to isolate South Africa. In our workplaces and our communities, black and white, men and women, young and old — it is a campaign to involve us all. This conference will provide practical proposals for action, with workshops on:
