The SECHABA PROJECT

22 September - 7 October

To South Africa's oppressed people the
African word SECHABA means
'NATION'.

It is also the title of a unique and
ambitious 16 day Festival and 5 day
International Conference of Cultural
Resistance to Apartheid which takes
place in Glasgow and will represent a
major contribution to the City's
European Capital of Culture
celebrations.

SECHABA will discuss and display the
widest possible range of the alternative
'Peoples Culture' that is sweeping South
Africa today and which represents one
of the most dynamic forms of creative
expression in the world.
