The SECHABA PROJECT
22 September - 7 October

To South Africa’s oppressed people the African word SECHABA means ‘NATION’.

It is also the title of a unique and ambitious 16 day Festival and 5 day International Conference of Cultural Resistance to Apartheid which takes place in Glasgow and will represent a major contribution to the City’s European Capital of Culture celebrations.

SECHABA will discuss and display the widest possible range of the alternative ‘Peoples Culture’ that is sweeping South Africa today and which represents one of the most dynamic forms of creative expression in the world.

For further information contact:
